

AircraftEngineers.co.uk

Contract & Permanent Recruitment Solutions.

AircraftEngineers.co.uk provides highly skilled and qualified contract personnel to the aerospace industry. We have a wide range of engineers on our team, from line and base maintenance to trimmers. We select only the best in the industry with the skills and experience that is demanded by our customers. Specialising in either small or large contracts, modifications, A.D. compliance, or AOG situations, we have the right manpower solution for your requirements. Our expertise in the JAR 145 maintenance field and because we appreciate the fast paced environment of this industry, we will not waste your time with false promises or communication delays, ensuring that your manpower requirements are met.

Permanent Recruitment.

- One stop recruitment resource.
- Receiving and filtering candidates.
- Web advertising.
- State of the art data base search for prospective candidates.
- Substantial reduction in "the total recruiting time"
- Greater staff retention.

Contract Recruitment.

- Supply of contract staff at short notice.
- Complete payroll services.
- Greater flexibility for the work to manpower ratio.
- No redundancy costs
- No Tax and National Insurance costs to manage.

Requests for engineers can be made via our website at www.AircraftEngineers.co.uk and we will respond within one working day.
